MY EV SERVICE™ — Autobot Engineers India Pvt. Ltd.

Fleet Maintenance Solutions & AMC Program

Dedicated commercial maintenance contracts, scheduled preventive servicing, and rapid breakdown support for last-mile delivery and e-auto fleets.

B2B Fleet Maintenance Overview

- Multi-Brand Fleet Care: One contract covering mixed delivery fleets across Ola, Ather, TVS, Bajaj, Mahindra, and Piaggio.
- 99.8% Fleet Uptime Guarantee: Priority workshop bays and mobile rescue vans to minimize delivery downtime.
- 2-Hour Breakdown Response SLA: Dedicated roadside rescue and rapid battery swapping in active service zones.
- Depot Service & Night Shift Inspections: Technicians stationed at your transit hubs between delivery shifts.

Predictive Battery Care & Telematics

- Monthly Cell-Level Diagnostic Audits: Real-time SOH tracking, IR testing, and active cell balancing.
- Preventive Defect Flagging: Early thermal runaway prevention and controller stress mapping.
- Transparent Consolidated Billing: One unified monthly GST invoice with vehicle-by-vehicle cost accounting.

Tiered AMC Packages

- Fleet Essential (10–25 Vehicles): Scheduled preventive servicing, quarterly battery audits, standard roadside support.
- Fleet Pro (26–100 Vehicles): Monthly battery audits, priority bay access, dedicated depot technicians, quarterly business reviews.
- Fleet Enterprise (100+ Vehicles): Custom SLA, dedicated account manager, API integration with ERP & telematics, live dashboard.
